but must be heavy enough for the
purpose; I intend during all tactics
necessary to convince those concerned
that after all a bounty had has
all it takes?

Well "my" things
are just the same up here, still
as hot as Harold's; But pleased
to say we had some good
rain during the past few days;
it certainly cooled the air off
to a great extent;

No doubt it was
shocking news to hear about
"Gordon" brough being killed
over Germany, was it it; I must
say I feel sorry for him & also
his people; In fact I always thought
a lot of young "Gordon"; I think
I always got "my" well together
when we used to meet
each other?

By the way is
"my" brough still working at the
better factory yet; Allan "Cowan"
was saying in one of his letters
that the youngest daughter of
his, the "what's her name"
now "Ailsa" what's it? Well
"Allan" said she is working at the
"General Hospital" & is as big as
a ship tank;

So it appears who
ever gets hitched up to her will
get plenty of weight for his money?
I got a letter from "Les Allen"
lately & he says he came
across "Mary Campbell" down in
"Brisbane". He informs me
she got spliced up to a chap
by the name of "Johnson"
who is stationed somewhere on
the home front?
